

**Implementation Contributions:**

Chris Ayoub: 33%

- Built upon APIHandler.swift and additional backend WUPHF functionality for email, SMS, and Facebook Messaging
- Implemented 'Contacts' and its associated ViewControllers
- Implemented 'Default Messages'

Victor Maestas: 33%

- SendWUPHFViewController.swift
- Implemented 'My Packs' with using 'PacksCollection' and 'PackMembersTable' ViewControllers
- Storage of packs on device using UserDefaults

Matthew Savignano: 33%

- Implemented 'My Packs' with using 'PacksCollection' and 'PackMembersTable' ViewControllers
- 'Create a Pack' Alert Screen in 'PacksCollectionViewController.swift
- Adjusted various constraints for buttons in Main.storyboard
- Storage of packs on device using UserDefaults

**Grading Level:**

Same grade for all members

**Differences:**

'Default Messages' which was initially a Final feature, has been implemented in our Beta. We also added email functionality.

**Special Instructions:**

Make sure to install Cocoa Pods (version 2.0 or higher). Run 'pod install'.
